

TIRE LIFE®

Premium biodegradable liquid formula developed by Fuller Brothers to benefit all companies that manage off the road tires.

Tire Life® is backed by a 100% Money Back Guarantee ensuring complete customer satisfaction

WHAT IS TIRE LIFE®?

Tire Life® is a specially formulated, light viscosity fluid that offers exceptional tire and rim protection when added to the tire air chamber. Specialty formulas are available for your region's ambient temperature. Available packaging and recommended quantity chart can be found on the Fuller Brothers website.

CERTIFIED BIODEGRADABLE

Flash point tested with no combustion

PERFORMANCE PROTECTION

- Protects tire liners from degrading and preserves original state
- Improves air retention by sealing natural liner porosity, O-rings, bead seats, and vent hole leakage
- Improves the seal over buffed areas when a proper repair has been installed
- Excellent leak detector - Dries light green or yellow on wheels when exposed to external air source

RUST AND OXIDATION

- Stops rust buildup by providing a protective antioxidant coating on wheels
- Removes existing rust scale from wheels and rims, and reduces the amount of downtime normally required for refinishing

SAFETY AND LABOR

- Tire Life® is non-hazardous and non-toxic
- Tire Life® does not fall into any US EPA hazard categories
- Tire Life® tested well below the 3 Australian acute aquatic hazard classifications
- Greatly improves the process of dismounting and mounting tires up to 50%
- Extremely easy to install and use product
- Improves efficiency of tire technicians
